Work experience

2018-2020 – Freelance work for CamperBoys GmbH while studying in Munich

- I developed a prototype travel app with backend CMS
- I generated 20x return on investment in paid online marketing.
- The travelapp was essential to winning the VIR innovation price "Springbrett".

2017-2018 – Junior data analyst at Holidu GmbH in Munich

- After consistent excellent results & feedback I switched departments to have higher impact.
- I lead an effort to develop a value per user forecasting model in R.
- I lead an effort to use clustering and machine learning to gain marketing insights.
- I managed a group working to improve an internal tool used to gather pricing data.
- I completed many small scripting tasks to analyse and provide data for other departments.
- I quickly learned and applied proficiently a variety of the technologies used by the BI team.

2016-2017 – Full time position as Junior Online Marketing Manager for the Nordics after internship at Holidu GmbH in Munich

- One of the fastest growing travel startups in Germany, grew from 40 to 200+ people in 2 years.
- I convinced my manager to adopt new automation saving days of work every week.
- I taught myself how to code, and implemented the first automation scripts on my own.
- Due to my initiative and impact I was offered a Full time position after only 2 months.
- I had full financial responsibility for managing the Norwegian, Swedish and UK marketing.

2016 – Summer internship at the Norwegian Institute for Public Health (Folkehelseinstituttet) in Oslo

2012, 13, 14 & 16 - Summer internships at the Norwegian Agency for Public Management and eGovernment in Oslo

Education

2018-2020 – Master in Management & Technology at the Technical University of Munich

- Technical University of Munich, one of Germanys top universities ranked top 50 in the world.
- Grade average 1.86/1, range: 1(best) - 5(worst)
- Specialisations in Entrepreneurship and Innovation (management) and Informatics (tech).
- I developed an Android app with speech to text AI, awarded best social startup idea.
- I practiced using design thinking, lean startup methodology and ethnographic thinking and more.
- Invited to participate in Junge Akademie, program for high achieving students.

2015-2016 – Bachelor (3rd year) in Economics and Management at University of Paris 1 – Pantheon Sorbonne

- Pantheon Sorbonne is one of France's best universities in the field of economics.
- I achieved a placing among the top 20% of students studying completely in French.

2015 – International Summer School at Copenhagen Business School

2013-2015 – Bachelor (1st & 2nd year) in Economics and Management at the University of Toulouse 1 Capitole

- Degree integrated with Toulouse School of Economics, Frances premier economics school.
- I achieved a placing among the top 20% of students studying completely in French.

2012-2013 – Preparation year for Bachelor in Economics and Management at the University of Toulouse 1 Capitole

2011-2012 – 1-year course in French at the University of Oslo

2008-2011 – High School at Lambertseter Videregående Skole in Oslo
